About this Degree

Students pursuing the Liberal Arts: Fine Arts degree may choose either to specialize within one of the four degree fields (Art, Cinema, Drama, or Music), or to take an interdisciplinary cross-section of introductory arts courses. The degree offers potential students the opportunity to develop basic skills in one or more of the arts; students who choose to specialize in a particular field can take courses commonly required at four-year institutions for majors, and thus can prepare themselves for upper division courses they may take in the future. Students not planning to continue their education, or planning to continue in some other field, will still benefit from the increased cultural awareness and personal fulfillment attained through this degree program.
