

PSYCHOLOGY (PSYCH)

About the program

Psychology is defined as the scientific study of behavior and mental processes. The following degree program allows students to utilize research methods; analyzing the credibility of research, theories, and applications; understand the core concepts of psychology; apply psychological concepts, theoretical perspectives, empirical findings, and historical trends to questions and issues on a societal and personal level; and understand the ethical standards in academic and applied psychology. This degree prepares students to pursue a baccalaureate degree in psychology.

About this Degree

The Associate in Arts in Psychology for Transfer is intended for students who plan to complete a bachelor's degree in Psychology at a CSU campus. Students completing the Associate in Arts in Psychology for Transfer are guaranteed admission to the CSU system, but not to a particular campus or major. This preparation includes the following student learning outcomes: 1) Utilize research methods; 2) Analyze the credibility of research, theories, and applications; 3) Understand the core concepts of psychology; 4) Apply psychological concepts, theoretical perspectives, empirical findings, and historical trends to questions and issues on a societal and personal level; and 5) Understand the ethical standards in academic and applied psychology.

Students transferring to a CSU campus that does accept the Associate in Arts in Psychology for Transfer will be required to complete no more than 60 units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. In all cases, students should consult with an academic advisor for more information about university admission and transfer requirements.
