Pest Control Services RFP Questions:

1. Is pricing from a previous vendor who performed these services available?
2023/24 Service contracts are provided below.
2. Is College of the Redwoods bound by the Healthy School Act?
Yes and No, the College is not bound by the HSA. Although, we do have a Child Development Center (CDC) that is bound by the HSA. See chart below, please visit [Healthy Schools Act FAQs \(ca.gov\)](https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/HealthySchoolsActFAQs.aspx) for more information.

Is it an HSA schoolsite?		
1 Athletic Field Public K-12 School		2 City Park (use agreement with school)
3 School District Office	4 Private Tutor	5 Family Day Care Home
6 Community College	7 Child Care Center	8 Private School Child Care Center

9 Child Care Center

 HSA requirements apply when a pesticide application is made within 10 feet of the perimeter of a child care center.

1. **Yes!**
2. **Yes!** Adjoining city or county parks regularly used by schools and child care centers are considered schoolsites. All requirements of the HSA apply. These school districts and local agencies should sign a formal memorandum of understanding or joint-use agreement so that the pesticide-use information can be shared between both entities.
3. **No.** Off-campus administration buildings are exempt.
4. **No.** This center is visited by pupils but is not a public school or licensed child care center.
5. **No.** Family day care homes are exempt.
6. **No.** College campuses and post-secondary facilities, even if attended by minors, are exempt.
7. **Yes!** Licensed child care centers, whether public or private, are considered schoolsites, even those on college campuses.
8. **No.** Private schools are exempt.
9. **Yes!** Licensed child care centers, even those not affiliated with the school property they are leasing from, are considered schoolsites.

Q & A answers to often-asked questions

Must we be at home when our service technician arrives?
You do not need to be home for your service technician to complete the regular maintenance services.

What about possible problems between Services?
If your home is invaded between services, please call us. We want to control the problem before it becomes a major infestation. We do not charge for these extra calls.

Will rain affect the service?
We use products designed for use on wet days that will go down into the soil, so that you'll have the complete protection you need.

Will this service control Bed Bugs?
No. This service is not designed to control bed bugs. If you believe that you have a bed bug infestation, please call us. The process of treating a bed bug infestation is very labor intensive and will require a thorough inspection of the property before any treatment is made. Your technician will discuss with you any charges for inspection and/or treatment necessary.

Will this service control flying insects?
Flying insects do not contact the residual barrier, so the regular maintenance services will not control them. However, we may be able to assist you if you develop an infestation.

Will this service control termites?
This service is not designed to control termites.

What preparation is necessary for inside service?
Before our Service Technician treats your home, he will outline the necessary preparation required for your specific problem.

What safety precautions do you take?
All of Woods' Service Technicians are licensed by the State of California, backed by constant, on-going training. Treatments are properly, cautiously, and effectively applied.

Woods Warranty
If any treated pests sneak past our BARRIERS and get back inside your home, we'll come back to take care of them at no extra charge.

We have read the **WOODS PEST CONTROL, INC.**, Service Agreement, Questions and Answers, and Woods Warranty. We understand that payments are due within 30 days of service. \$10.00 late fee applied monthly to all past due accounts.
