

## **FNR Graduate Information Survey**

As part of our continuous effort to enhance the quality of our FNR program and to support our accreditation process, we have conducted a brief survey of program completers. Student insights and experiences are invaluable to us, as they will help shape the future of the program and ensure that it continues to meet the needs and expectations of current and future students.

The following survey was deployed summer 2024 by College of the Redwoods, Office of Institutional Effectiveness and Research for recent FNR graduates with a 75% response rate. This includes completers from terms 2023S, 2023F and 2024S, all of which earned the AS degree.

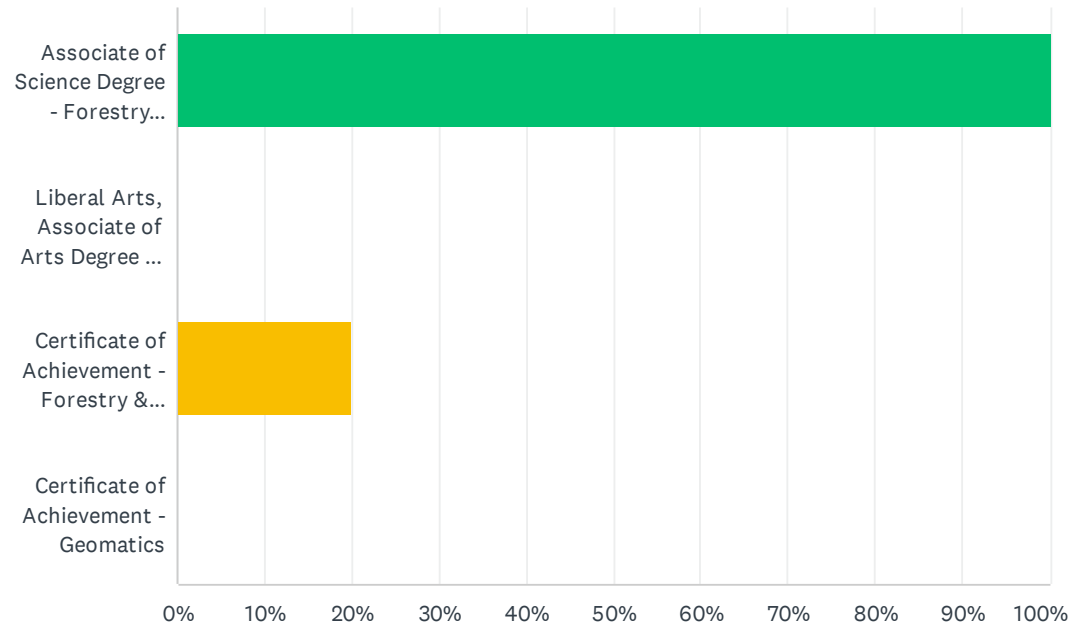

The second survey completed summer 2024 was our first deployment and compiles program completers from 2018 to 2022 with a 70.5% response rate.

Note: Some questions were removed from both shared results to preserve anonymity.

1	College of the Redwoods may be small, but due to its unique location in the heart of redwood country, excellent educators, and invested community, CR is without doubt an esteemed place of learning deserving of the SAF accreditation.	7/12/2023 10:28 AM
2	The current culture of forestry is moving towards the idea that you need a bachelors to achieve the title of Forester. I can say with confidence that College of The Redwoods shatters that notion. I came to CR with no prior knowledge of forestry, obtained my Associates, and got promoted to forester two years after I graduated.	6/6/2023 2:14 PM
3	The new trail class changed my career path and passion. While it falls under my degree, I would have never known the job/occupation existed without taking the class.	5/30/2023 6:58 PM
4	FNR professors have a lot of heart - different breed than HSU professors. CR is a great place to figure out what you want to do and help you gain skills to go to HSU and be successful in the workplace.	5/23/2023 3:08 PM
